Course planning for individuals and
groups, international students and
different experience levels; practical
demonstrations and step-by-step
guidance.

LORENZO GALLIGANI

SCULPTOR & SCULPTURE EDUCATOR

PROFESSIONAL PROFILE

Florentine sculptor and educator specialising in traditional marble carving and contemporary sculpture. More than fifteen years of teaching experience with Italian and international students and artists, including visiting professorships in Mexico. My teaching combines technical discipline, traditional craftsmanship and individual artistic research.

TEACHING PHILOSOPHY

My aim is to guide students in using artistic expression as a critical, creative and personal way of understanding themselves and the world. Drawing on "Know thyself" and "Dare to know", I see art as a fundamental language of education: a tool for inner exploration, connection and the development of an individual sculptural voice.

TEACHING EXPERIENCE

2010-Present | AD'A - Accademia d'Arte

Florence, Italy · Sculpture Instructor
Head of Sculpture Teaching since 2013.

2023-Present | CEA CAPA

Florence, Italy · Sculpture Instructor.
